

Maria

Background

Age: 26

Gender: Female

Languages: German, English

Job: Software Developer

Status: Graduate

Want to stay in academia: Yes

Personality

Introverted  Extroverted

Passive  Active

Creative  Analytical

Feeling  Thinking

Social Media

- Instagram
- Youtube
- Discord
- ArtStation
- Mastodon

UK4You Needs

- Connections
- Study groups
- Module-specific topics
- Research
- Curriculum Vitae

Goals and motivations

- Research
- Fast
- Accessible
- Decision to decide how long to stay

Frustrations

- Flood of information
- Advertising
- Fake information
- Data breaches
- Institutions

Biography

Maria started training as a software developer right after school. She liked it there so much that she immediately started studying in this direction. She is currently in her first master's semester and recently completed her bachelor's thesis. She only uses social media to briefly check the most important information or to do research on a topic. She currently has little free time and for this very reason she would like her information to be as compact as possible.
